Full Stack Developer with over 2 years of experience. Proficient in various JavaScript-related technologies. Experienced in developing robust, scalable web applications and managing projects from conception to deployment

TECHNICAL SKILLS

Languages & Frameworks:	HTML, CSS, JavaScript, PHP, SCSS, SASS, Tailwind CSS, React, Redux, NodeJS, ExpressJS, TYPO3
Databases:	MongoDB, Mongoose, PostgreSQL, Prisma, MySQL
Tools & Technologies:	Docker, Postman, Trello, Jira, VSCode, Transmit

EXPERIENCE

Software Engineer Gosign – Longtail Advertising	July 2022 – Present Hamburg, Germany (Remote)
<ul style="list-style-type: none">Developed, maintained, and shipped production code for client websites primarily using HTML, CSS, Sass, JavaScript, and React.Developed various RESTful API endpoints using Node.js and ExpressJS. Utilized multiple Google API's to fetch data from Google services, processed the data, and integrated it into my API.Designed and implemented a comprehensive user management dashboard. Utilized libraries such as PassportJS to manage user authentication and authorization, ensuring secure access and efficient user administration.Created and enhanced multiple TYPO3 extensions, improving functionality and user experience within the content management system.	

PROJECTS

- Users and Tools Management Dashboard.** Developed an entire dashboard for user management as well as for managing the tools that our company provides. Used multiple libraries extensions like passportJS and bcryptJS building for user management and authentication.
- Web Crawler with Automated Report Generation.** Developed a sophisticated web crawler using Puppeteer, integrated with a Javascript backend utilizing the NodeJS framework and SQL database. The system is designed for comprehensive website crawling, managing subpages, and identifying external resources efficiently.
- Movie Tracker & Recommendation System.** Developed and deployed a Movie Tracker & Recommendation System, a full-stack web application. The system tracks user movie preferences and provides personalized recommendations.

EDUCATION

Bachelor of Science in Computer Science, University of Sargodha

2018 – 2022
